NEW AND

Important Discovery

GRAY HAIR can be restored to its original color whether Auburn, Brown or Black. Sandy, Light or Red Hair can be matched with any darker shade, possessing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Of our preparation, which is entirely different from all other preparations of Hair Dye now before the public. It *free from all injurious properties which can be found* by taking a look of the finest and most delicate shade of a pigeon's neck and color it with the Dye, which will not impart the gloss or its texture in the slightest degree, which is the best evidence that can be given that it is not injurious. On the contrary it improves the color of the Hair promotes its growth, and prevents its falling out and unlike other preparations, (after the Hair is colored and dry) will not crock, fade or wash out.

In short from its peculiar delicacy, softness, and easy application it is worthy the attention of all who are wish to improve the color of the Hair, as it will look any shade, from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray, and to others whose Hair is of an undesirable color, which they restore or change for a beautiful Auburn Brown or Black, without any addition of preparation or the slightest trouble. Oldtown, Sept 4, 1848.

FITS! FITS!!

HARRISON'S VEGETABLE EXTRACT

is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contraction or Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy, Paralysis, General debility, Deficiency of Nervous and Physical Energy, and in a Nervous Disorder, in short the most dreadful of all diseases that ever afflicted the human race.

EPILEPTIC FITS,

or Falling sickness, Hysterical Fits, Convulsions, Spasms, &c.! Dr. Hart would impress it on the minds of humanity that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. Its tendency is to infinity, sudden and death, the most.

SKILLFUL PHYSICIANS

of Europe as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all discoveries was made by Doctor S. Hart, nearly six teen years since, during which time it has been performing great of the most.

REMARKABLE CURES

upon record, and has acquired a reputation which time alone cannot efface. Physicians of unbounded skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus afflicted as the only remedy.

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I live! that I am a well man! I also feel it my duty in profession to the end of the earth, that those similarly afflicted may find relief." Another (who is an

EMINENT LAWYER,

and well known in this city,) says, "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract." He firmly believes, alongside and in fact to be proved in the results of this earth." Another says "Language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty thousand nights and my morning and evening prayers of private and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

Mrs J. Bradley 115 Orchard street, New York, states that she has been subject to Fits for many years and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract.

Dr. Charles A. Brown of Dover Rusell co, Alabama who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he is most strongly prescribe it in every case of Epilepsy will the chances under his management.

Curtis C. Mayberry, Esq. formerly Postmaster at Lime Mills, Crawford Co. Pa., now living in Erie Co. Pa. states that for many years past he has been severely afflicted with Fits and he is now happy to state that by persevering use of Dr. Hart's Vegetable Extract he has restored him to sound health, being entirely free from that worst of all diseases.

Mr. Stephen E. Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr. Charles E. Houghton, a member of his family has been so severely afflicted with Epileptic Fits for many years that he was compelled to relinquish his business. Having used Dr. Hart's Vegetable Extract says Mr. P. he was soon restored to perfect health and left this city for the State of Ohio to resume his business.

Rev. Mr. Smith, Rector of St. Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for upwards of two years, states that he has used Dr. Hart's Vegetable Extract and his health has been so much improved that he hopes by Divine blessing to add no more Fits.

EPILEPTIC FITS.

For twenty seven years and six months, cured by the use of this highly wonderful medicine.

Read the following remarkable case of the son of Wm. Cox Esq. of Philadelphia, affected with Epileptic Fits for twenty seven years and six months. After travelling through England, Scotland, Germany, and France consulting the most eminent physicians, and expending his money in medicine, medical treatment and nine thousand dollars, returned with his son to this country in Nov. last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT.

I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited England. I consulted the most eminent physicians there in regard to his case, they examined him and prescribed accordingly. I remained there three months with no perceptible change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE.

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your testimonials and certificates of so many cures, some of twenty and thirty years standing, and I can assure you and not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason which was so far gone as to unfit him for business in entirety restored, with the prospect now before him of life, health and usefulness. He is now 26 years of age, and 27 years 6 months of this time he has been afflicted with the most dreadful of diseases, but thank God is now enjoying good health.

Now, sir, hath without words I don't believe in — To say I am the ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt you will think this another and quite a different thing. The debt of gratitude I still owe you, but I hope accept this amount as interest on the debt in advance. Yours, very respectfully,

(Signed,) WILLIAM SECORE.

THE TIME IS NOT FAR DISTANT

When thousands who are now groaning under the hand of this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

of SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power without reducing it and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL talents and Skill in the world, and CURES all the Sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum,

and every Disease which arises from **Impure Blood!**

CONSUMPTION CURED WITH

KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES, astonishing as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says

SIR BENJAMIN BRODIE,

Surgeon to the royal Family of England, that There is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury. What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when everything else fails.

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is that it does not tamper with the patient or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfectly pure Blood so that the cure is always thorough and permanent. Others only scatter or back on the disease, but this EXTIRPATES it wholly from the system—thus saves the patient while other others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant that **Medical Colleges, Professors,** and Physicians always prefer it for the sake of its Superiority. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially, that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability, to cure every Disease Affection, or Pain, which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

Troy, N. Y. July 1st, 1848.

The American Air Tight Cooking Stove.

If this is not the best Stove in use why so many attempts to infringe upon it? This suit was brought to sustain the Patent and to stop the infringements and after a most thorough legal investigation these rights were promptly decided, fully sustaining this Patent.

More than Ten Thousand of these Stoves are now in use. The testimony of this multitude the past year establishes the fact beyond a doubt that there are more good and useful qualities combined in this Stove than in any other Stove. The fire brick cover top is of great value in equalizing the heat around the oven absorbing the steam causing the bread &c. to rise and take it up quick—and giving bread and pudding an excellent flavor of the house brick oven. The kitchen for roasting in front, is complete. The summer arrangement for broiling, frying, boiling, heating of irons &c. is admirable. The great economy of fuel, substantial construction and general good quality of this Stove is the cause of its universal admiration.

WARMING AND VENTILATION of cottages and public places, the principles as recently adopted by an unanimous vote of the School Committee of the city of Boston, as will be seen by their printed report of 1847 and 1848, which after being thoroughly tested in public and private buildings, has been generally adopted in concurrence with the view of several other cities. The committee, and all their gentlemen who have experience, has enabled them to become convert-ant with the method of warming and ventilating dwellings, churches, school houses, hospitals, factories, stores &c. with an abundant supply of fresh, healthful warm air. The fire has to be allowed to be burnt in our stoves, in instances equal to the quantity consumed by common fires, in contact with the fire in fire places.

It has abundantly proved itself to be a complete and perfect system.

The Great Remedy for Gonorrhœa

OR DR. DOUGLASS'S ARABIAN PASTE. Dr. Douglass is well known having practiced in the principal cities in the Union during the last 18 years. His only reason for introducing the Paste in this public manner is the reason he assures that their are thousands of all treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr. D. most solemnly affirms that during his period of forty years the Paste has never in one single instance failed of effecting a cure in a few days without any the evil effects or hindrance from business. He has daily use of the most stubborn cases—cases that have resisted the energetic use of treatment adopted by our first physicians for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patient quickly hearkened and cured.

If the unfortunate victim of deceiving therapeutics with quack nostrums, would purchase only one box of the Arabian Paste we feel assured we shall see so many emaciated bodies disappear with confidence as we do at the present time.

Sufferers this Paste is sent full to effect a cure with the sum of one dollar to cover the price paid for it will be given the purchaser on returning the empty box.

For the box by the original inventor and sole proprietor Dr. LEWIS DOUGLASS at his Office No. 1 Tremont street, Boston at 50 per box where he can be at all times consulted on every disease incident to the human frame, and the patient fully apprised of the most beneficial course of treatment to pursue, adapted.

THURSDAY, NOVEMBER 16, 1848.

☞ The Boston Signal well says in reference to the recent Presidential election, that the country is now prepared to enjoy a period of repose. The battle which has been fought, is not a triumph for the Whigs as a party—far from it! It is a triumph of the thinking men of all parties—of the conservative strength of the country—men who were anxious once more to behold the country guided by a man whose moral and political character bears a semblance of that of Washington—a man who has had the moral and political courage, while courteous to all combinations and associations of men, to rebuke the mad strife of party, and to throw himself upon the good sense of the people, impledged to any course which might interfere with the interests and glory of a great nation. It was such a man as men desired, but scarcely hoped to find—a man who would break down the false political maxim that a public servant should do wrong for his party's sake—a maxim that has established and perpetuated the worst terrors under which our country groans.

☞ The Platform of this week seems to enjoy itself very tolerably in torturing all out of turnips, is the way of the elections. It is ferocious upon those substantial Liberty party men who, would not consent to the transfer of themselves with the party to the support of Van Buren, and who voted for Taylor. Advice is given to the loco party to accept with all unanimity and promptness the principles of the Free Soil party and thus hope to return again to power.

Godey's Lady's Book, December, 1848.

We have received from the publisher, the December number of this excellent periodical. It is the most splendid number we have seen of a monthly periodical, and proves conclusively that the friends of this work can with safety rely upon the enterprise and ability of Mr. Godey to furnish a work of the first rank in literature and the fine arts.

The patrons of this work are also furnished with the Lady's Dollar Newspaper, an excellent paper.

This number of the Lady's book closes the year brilliantly, and places the volume far ahead of all others which have reached us.

☞ Gen Caleb Cushing, the loco candidate for Governor, in Massachusetts, is reduced to the smallest denomination. In some towns a majority of the party that nominated him refused to vote for him. In Natick all but six of the Democratic votes were for Col Davis, of Worcester, the former candidate of the Democratic party. His vote is small in the whole State. It is a well deserved rebuke to one of the most ambitious men in the nation.

☞ Sometime since a man came along this way with proposals for publishing a business directory of the principal cities and towns of New England. He obtained many subscriptions here, but no directory has as yet appeared and those who paid their money would like the promised work. Cannot the press help in hunting up this delinquent?

Torch-light Procession.

We learn that the torch-light procession intended for Friday evening, has been postponed. Should it be deemed advisable to make such a demonstration, due notice will be given.

☞ The prospectus of the Choctaw Telegraph, a weekly Indian newspaper, to be published at Doaksville, Choctaw Nation, has made its appearance.

☞ In order to enable all connected with our office to rest from their labors, and devote this day to thankfulness, no paper will be issued from this office to-morrow.

An Unwilling Confessor.

The Washington Union thus reluctantly acknowledges the defeat of the Democratic candidate:

'The National Intelligencer of yesterday morning claims the election of General Zachary Taylor as President of the United States. We know of no cause to gainsay this proclamation.'

There will soon be a reduction in wages in every part of the country, as a consequence of the financial acts of the present administration. Should it be possible to make reforms at an early day, the savings inconvenience may be but of short duration—but the working men of the country should be prepared to meet the case with patience and economy. It may be a consolation that the prices of food will fall at the same time. So much for persuading in misguided democracy.—*Boston Signal.*

Massachusetts Election.

The election for State officers took place in Massachusetts on Monday last.

Gov. Briggs, the Whig candidate, has gained largely, and is probably re-elected.

Of the members of Congress, six whigs are certainly or probably elected.

1st Dist—	Robert C. Winthrop, whig, 3347 maj.	
2d "	No choice.	
3d "	James H Duncan, whig, probably.	
4th "	No choice	
5th "	No choice.	
6th "	George Ashmun, whig, elected.	
7th "	Julius Rockwell, whig, elected.	
8th "	Horace Mann, elected.	
9th "	No choice.	
10th "	Joseph Grinnell, elected.	

The Whigs have the Legislature in both branches, by an overwhelming majority.

The Presidential Result.

Taylor has 163 electoral votes beyond any contingency, besides some chance for Virginia and Mississippi. North Carolina it is now stated, will give Taylor 8,000 majority; Kentucky, 15,000; Georgia from two to three thousand. The only information yet obtained from Missouri is the vote of St Louis, which was carried by Cass by 5 majority. Iowa shows a small gain for Cass, as does also Wisconsin. It is probable that the entire West has voted for Cass. From the extreme South, Texas and Florida have not yet been heard from, and only New Orleans from Louisiana.

Important from Venezuela.

A letter from Laguyra via St Thomas received by a merchant of the city says, that the writer is happy to state that there is every prospect of a settlement of the existing troubles in Venezuela, and a consequent prospect of a revival of trade. The writer does not state how the civil war now ranging in that unhappy country is to be brought to a close, but he speaks in very confident terms of a peaceful result, and we hope it may be so.

Jamaica, Porto Rico and Yucatan.

By the arrival, at New York, of the British Mail packet Forth, later advices have been received from the West India Islands.

From *Jamaica* dates are to the 23d. The principal topic of interest is said to be the question of continuing or stopping supplies from the Colony to the Home Government. The Jamaica Dispatch advocates the absolute stoppage of all further revenue to the British Government while what it terms the suicidal legislation, is persisted in by Parliament, which, it asserts, has already brought ruin upon the prospects of the Islanders. The Governor has issued a call for the assembling of the Legislature on the 26th inst, and the question is expected to be an absorbing one.

Porto Rico.—The passengers from Porto Rico give a dreadful account of the state of the Island. A revolt of the slaves was expected every moment. A general massacre of the whites was expected to be the result of the insurrection. The Spaniards fear that the slaves will receive aid from Hayti, as the Haytians have threatened to make a descent upon Porto Rico.

Yucatan.—Accounts from Yucatan by this arrival, state that the Government troops have retaken all the towns and villages in possession of the Indians, except a very few small and distant ones.—About 30,000 Indians have joined the Government forces since the re-capture of Valladolid, Peto, &c.

The Ugly Duck.

[A highly respectable matronly duck introduces into the poultry yard a brood which she has just hatched. She has a deal of trouble with 'an egg' much larger than the rest, and which, at last, produced a very 'ugly duck,' who gives the name, and is the hero of the story.]

'So we are to have this tribe too!' said the other ducks, 'as if there was not enough of us already! And, my look how ugly one is; we won't suffer that one here.' And immediately a duck flew at it and bit it on the neck.

'Let it alone,' said the mother, 'it does no one any harm.'

'Yes, but it is so large and strange look ng, and therefore it must be teased.'

'These are fine children that the mother has!' said an old duck who belonged to the aristocracy, and wore a red rag round its leg. 'All handsome, except one, it has not turned out well, I wish she could change it.'

'That can't be done, your grace,' said the mother; 'besides, if it is not, exactly pretty, it is a sweet child, and swims as well as the others, even a little better. I think it growing it will improve. It was long in the egg, and that's the reason it is a little awkward.'

'The others are nice little things,' said the old duck; 'now make yourself quite at home here.'

And so they did. But the poor young duck that had come last out of the shell, and looked so ugly, was bitten, and teased, by ducks and fowls. 'It is so large!' said they all; and the turkey cock that had spurs on when he came into the world, and therefore fancied himself an emperor, strutted about like a ship under full sail, went straight up to it, gobbled, and got quite red.

The poor little duck hardly knew where to go or where to stand, it was so sorrowful because it was so ugly and the ridicule of the whole poultry yard.

Thus passed the first day, and afterwards it grew worse and worse. The poor duck was hunted about by every one; its brothers and sisters were cross to it, and always said, 'I wish the cat would get you, you frightful creature!'—And the ducks bit it, and the hens pecked at it, and the girl that fed the poultry kicked it with her foot. So it ran and flew over the hedge.

'All right tan. A bird it came to a great moor where wild ducks lived; here it lay the whole night, and was so tired and melancholy. In the morning up flew the wild ducks, and saw their new comrade. 'Who are you?' asked they; and our little duck turned on every side, and bowed as well as it could. 'But you are tremendous ugly!' said the wild ducks. 'However, that is of no consequence to us, if you don't marry into our family.'

The poor thing! It certainly never thought of marrying; it only wanted permission to lie among the reeds, and to drink the water of the marsh.

'Bang! bang!' was heard at this moment, and several wild ducks lay dead among the reeds, and the water was as red as blood. There was a great shooting excursion. The sportsmen lay all round the moor; and the blue smoke floated like a cloud through the dark trees, and sunk down in the very water; and the dog splashed about in the marsh—splash! splash! reeds and rushes were waving on all sides; it was a terrible fright for the poor duck.

At last all was quiet; but the poor little thing did not yet dare to lift its head; it waited many hours before it looked round, and then hastened away from the moor as quickly as possible.—It ran over the fields and meadows, and there was such a wind that it could hardly get along.

Towards evening, the duck reached a little hut. Here dwelt an old woman, with her tom cat and hen; and the cat could put up her back and purr, and the hen lay eggs, and the old woman loved them both, as her very children. For certain reasons of her own, she let the duck in to live with them.

Now the tom-cat was master in the house, and the hen was mistress; and they always said, 'we and the world.' That the duck should have any opinion of its own, they never would allow.

'Can you lay eggs?' asked the hen.

'No.'

'Well, then, be a good one.'

'Can you not put your back and purr?'

'No.'

'Well, then, you ought to have no opinion of your own, where sensible people are speaking.'

And the duck sat in the corner, and was very sad; when suddenly it took into its head to think of the fresh air and the sunshine; and it had such an overpowering longing to swim on the water, that it could not help telling the hen of it.

'What next, I wonder!' said the hen; 'you have nothing to do, and so you sit brooding over such fancies. Lay eggs, or purr, and you'll forget them.'

'But it is so delightful to swim on the water!' said the duck—'so delightful when it dashes over one's head, and one dives, down to the very bottom.'

'Well, that must be a fine pleasure!' said the hen. 'You are crazy, I think. Ask the cat, who is the cleverest man I know, if he would like to swim on the water, or perhaps to dive, to say nothing of myself. Ask our mistress, the old lady, and there is no man in the world cleverer than she is; do you think she would much like to swim on the water, and for the water to dash over her head?'

'You don't understand me,' said the duck.

'Understand, indeed! if we don't understand you, who should? I suppose you won't pretend to be cleverer than the tom-cat, or our mistress, to say nothing of myself? Don't behave in that way, child; but be thankful for all the kindness that has been shown to you—Have you not got a warm room, and have you not the society of persons from whom something is to be learnt? But you are a block-head and it is tiresome to have to do with you. You may believe what I say. I am well disposed towards you; I tell you what is disagreeable, and it is by one that recognizes one's true friends.'

'I think I shall go into the wide world,' said the duckling.

'Well, then go!' answered the hen.

And so the duck went. It swam on the water, it dived down—but was disregarded by every animal on account of its ugliness.

One evening—the sun was setting most magnificently—there came a whole flock of large beautiful birds out of the bushes; never had the duck seen anything so beautiful. They were of a brilliant white, with long slender necks—they were swans.

They uttered a strange note, spread their superb long wings, and flew away from the cold countries (for the winter was setting in) to warmer lands and unfrozen lakes. They mounted so high, so very high! the little ugly duck felt inexplicably—it turned round in the water like a mill-wheel, and uttered a cry so loud and strange that it was afraid of even itself. Oh, the beautiful birds! the happy birds! it could not forget them; and when it could see them no longer, it dived down to the very bottom of the water, and when it came up again it was quite beside itself.

And now it became so cold!! But it would be too and to relate all the sufferings and misery which the duckling had to endure through the hard winter. It lay on the moor in the rushes.

But when the sun began to shine again more warmly—when the larks sung and the lovely spring was come—then all at once it spread out its wings and rose in the air. They made a rushing noise louder than formerly; and bore it onwards more vigorously; and before it was well aware of it, found itself in a garden, where the apple trees were in blossom, and where the syringas sent forth their fragrance, and then long green branches hung down in the clear stream. Just then three beautiful white swans came out of the thicket. They rustled their feathers, and swam on the water, so lightly—oh! so very lightly! The duckling knew the superb creatures, and was seized with a strange feeling of sadness.

'To them will I fly!' said it, 'to the royal birds. Though they kill me I must fly to them! And it flew into the water and swam to the magnificent birds, that looked at, and with ruffling plumes sailed toward it.

'Kill me!' said the poor creature, and bowed down its head to the water, and awaited death. But what did it see in the water? It saw beneath its own likeness; but no longer that of an awkward grey ish bird, ugly and displeasing; it was the figure of a swan.

It is of no consequence being born in a farm yard, if it's only a swan's egg.

The large swans swam beside it, and stroked it with their bills. There were little children running about in the garden; they threw bread into the water and the youngest cried out, 'There is a new one!' And the other children shouted too, 'Yes, a new one is come!' and they clapped their hands and danced, and ran to tell their father and mother. And they threw bread and cake into the water, and every one said the new one is best! so young and so beautiful!'

Then the young one felt quite ashamed, and hid its head under its wings; it knew not what to do; it was too happy, but yet not proud, for a good heart is never proud. It remembered how it had been persecuted and derided, and now it heard all say that it was the most beautiful of birds. And the syringas bent down their branches to it in the water, and sun shone so lovely and so warm. Then it shook its plume, the slender neck was lifted up, and from its very heart it cried, rejoicingly, 'Never dreamed I of such happiness when I was the little ugly duck.'

Reading.

Coleridge tells us of four kinds of readers.—The first, like the hour-glass; the ir reading, like the sand, running in, and then out, and leaving not a vestige behind. The second, like the sponge, which imbibes everything, only to return it in the same state or perhaps dirtier.—The third, like the jelly-bag, allows the pure to pass away, and keeping only the refuse and dregs; and the fourth, like slaves in the mines of Golconda casting aside all that is worthless, and retaining only the diamonds and gems.—See to it, that you are of the latter class, gathering riches from all your reading. To this end do you read.

At random, indiscriminately. The world is full of books, and a lifetime would not suffice to read all, even if they were good, which vast numbers of them are not. Make, then, a selection of your books, and be careful in making it. Touch not, if possible a single volume that is unworthy, trifling, or useless. Seek first for the most important subjects, and then for the best works respecting them. Be as careful of the books you read, as of the company you keep; for your character and habits will be as much influenced by the former as the latter. See to it, then, that both are good. And even in perusing good books—for the best are imperfect—imitate the fisherman spoken of in the gospel, who, in drawing in their net full of all kinds of fishes, "gathered the good into vessels, but cast the bad away." Ever have, also, some high and useful aim in reading. Whatever you read have an object in reading it. Know not only what, but why you read. Read for the discipline of your intellect, the elevation of your taste, the extension of your knowledge, the improvement of your heart, the regulation of your conduct and life. Read, that you may store up lessons of wisdom, to apply them to yourself; that you may follow every good, and avoid every evil example, and thus daily become wiser, happier, better, and more useful.—*Am. There are moments when some stormy impulse will force the heart to disclose the long buried thoughts of years—perhaps some secret incident tells all that we are hear to some who can sympathize and feel for us—perhaps these are the overflowings of grief, without which the heart would grow full to bursting. Whatever they be, they seem to calm and soothe us, though afterwards we may sorrow for having indulged in them.

Lines at my Sister's Grave.

BY MAJ. G. W. PATTEN, U. S. A.

Beside thy dewy grave I pass,
(A fresh and bowery mound,)
Sunlight is dancing on the grass,
And the red-breast chirps around;
While from afar the city's hum
Steals gently on the ear:
And yet for me is nature dumb!
Thy voice I cannot hear.

Thou told'st me, from a distant land,
I ne'er should be forgot;
I come—e'en at thy side I stand—
And yet thou heed'st me not.
Where are those accents which were heard
So oft on music's breath?
Sister! I hear no answering word,
Is this! Yea! *this* is death!

Beside *my* father's aged form
They've laid thee, breast to breast;
Too bitter was the world's bleak storm,
But *both* are now at rest.
In life united—Oh! with such
Affection undefiled!
In death 'tis well their coffins touch—
The father and the child.

Thou, sister, had'st but little strength
To tread life's thorny track;
So calmly dost thou sleep at length,
'Twere sin to wish thee back;
The music of thy gentle tone,
Though to my bosom dear,
And though my heart is sad and lone,
I would not have thee hare.

For me is still life's stirring tide—
The battle and the storm—
The wave where warring navies ride—
The field where squadron's form!
But *then*, with no long watch to keep—
No dream at morn to tell—
Freed one I thine is an envied sleep!
Sweet sister! Fare thee well!

BANGOR LYCEUM.

The Managers having been disappointed in obtaining the services of the gentleman whom they had engaged to lecture the present week, in consequence of his illness; and being prevented by the altered arrangements in the steamboat and rail road routes between this city and Boston from procuring another lecturer seasonably, to supply his place, give notice to the patrons of the Lyceum, that probably, there will be no lecture the present week.

Next week two Lectures may be expected from Hon. HORACE GREELEY, editor of the New York Tribune. The subjects of these lectures will, in due time, be announced.

J. BRIGHT, Sec'y.

☞ We advise those of our readers who are in want of any article in the Dry Goods line to call at T. G. STICKNEY'S, No. 1 Main Street, as he has just returned from Boston with a very extensive assortment, and from the crowds that visit his store we judge he must be selling remarkably cheap.

☞ Most Extraordinary Work. ☜

THE MARRIED WOMAN'S PRIVATE GYNECOLOGY. *By Dr. A. M. Mauriceau, Professor of Diseases of Women.—Sixth Edition. 18 mo. pp. 250. Price $1. 50,000 copies sold in Six Months!*

Years of suffering, of physical and mental anguish to many an affectionate wife, and pecuniary difficulties to the husband might have been spared; thousands now poor would have enjoyed competence; thousands now broken in health would have enjoyed it. hundreds now in their graves been still alive by a timely possession of this work.

It is intended especially for the married, or those contemplating marriage, as disclosing important secrets which should be known to them particularly.

Truly, knowledge is power. It is health, happiness, affluence.

The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author will attest.

Here, also, every female—the wife, the mother, the one either budding into womanhood, or the one in the decline of years, in whom nature contemplates an important change—can discover the causes, the symptoms, and the most efficient remedies, and most certain mode of cure, in every complaint to which her sex is subject.

An Importance to the Married may be gathered from the fact that Travelling Agents make from *Three to Five Dollars a day*, from its sale.—Hundreds of active, enterprizing agents are accumulating a little competence from the liberal discount allowed and the great demand for it. Orders are required to be accompanied with payment.

Copies will be sent by mail, free of postage to the purchaser.

Over twenty thousand copies have been sent by mail within three months with perfect safety and certainty.

On the receipt of One Dollar the "Married Women's Private Medical Companion" will be sent (*sealed free*) to any part of the United States. All letters and applications from those desirous to become agents must be post paid (except those containing a remittance) and addressed to Dr. A. M. Mauriceau, Box 1324, New York City. Publishing Office, 129 Liberty-st, New York.

The "Married Woman's Private Medical Companion" is sold by Booksellers throughout the United States.

It will be seen by this law that divisions are allowed the term of two years to raise their quota of volunteers at the expiration of which on failing to furnish the number of companies to which they are entitled other divisions will be authorized to raise them on petitioning to the commander in chief It is hoped that the martial spirit of our citizens has not become entirely extinct by the long suspension of active military service, but that there still exists in our State those military and patriotic impulses that will ensure a willing and prompt return to duty and a vigorous organization in each division of the militia of Maine of all the force allowed by law

Independent companies already organized are invited to join the volunteer corps of our State, and whenever they indicate to this department their wish and determination to comply with the provisions of law they will be furnished with arms by the State

Our citizens generally are also invited to organize new companies with becoming promptitude, petitions for which may be forwarded to the office of the Adjutant General

The State has now on hand a variety of muskets and rifles and in a few weeks will be in possession of nearly one thousand percussion rifles of the latest and most approved model which will be subject to the order of companies first making application By the Commander in Chief,

For the cure of Coughs, Colds Asthma Hoarseness, Bronchitis Hooping Cough Croup and Consumption

WHENEVER this remedy is at hand, there is ease of the lungs or throat need be feared, for it gives immediate relief and if persevered in effects a permanent cure The formula by which it is prepared has been laid before the medical Colleges, and in large part of the medical Profession of this country, and they have agreed in ascribing it unlimited praise as a most skilful Preparation and the most certain remedy known for diseases of the Lungs and Throat

DR BARTLETT OF CONCORD, MASS, uses it constantly in his extensive practice, and particularly recommends it in cases of *Hooping Cough*, he having found it more certain to cure that troublesome disease than any other medicine

DR BREWSTER OF WINDHAM CO, CONN, sends us the following testimony

Mr J C Ayer—*Dear Sir*—I enclose you a certificate from Mrs Esther M Cady a highly respectable lady of this village, wife of Mr Seth Cady, Dep'y Sheriff, Windham Co, Conn The cure of her case was very prompt, and has attracted general attention

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured He treats every and chronic cases are weekly received by its extraordinary virtues

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not sit, sleep or walk I had the most intolerable pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than nine hundred dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours, respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Peekskill, August 13 847

Dr Townsend—Dear Sir I have a little girl, upon years of age who has been several years afflicted with Fits, we tried almost every thing for her, but without success at last, although we could find no recommendation in your circulars in cases like hers, we thought, as she was in very deep fits for hours, we should give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and healthy, for which we feel grateful Yours, respectfully
JOHN BETLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Stoppage, Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Pills Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by imprudence, ill usage, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude from taking it, at once become robust and full of energy under its influence It immediately counteracts the debilitated state of the female frame, which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using few bottles of this invaluable medicine, have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES

Dr Townsend's Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*the turn of life*," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delightful several years by using this medicine* Not is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system and relieving the suffrings attendant upon childbirth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is a invaluable medicine It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—as Costiveness Cramps, Swelling of the Feet, Gleepsodacy, Hagetburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation has no equal. The great security of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with these medicines, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil the beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the shaving and razor, nature's own production in the "human face divine," as well as the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite hues and tints that which imparts the indescribable shade and flashes of loveliness that a Raphael but none dare describe This beauty is the offspring of nature—not of powder or *rouge* If there is not a free and healthy circulation, there is no beauty, let the lady be fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow and there is pure and active blood, it gives a rich blood to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain clear skin, a fair step, bouyant spirits, sparkling eyes, and beautiful complexions they should use Dr Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd to offices daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, place the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house as unprecedented

THREE CHILDREN.

Dr. Townsend—Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully,
ISAAC W CRAIN, 106 Wooster-st.

The following is an answer in reply to a note from our agent asking Dr Bouton's opinion of the medicine,

TUNKHANNOCK Aug 29, 1848

Mr. A Durham—Dear Sir—In reply to your note of yesterday I would state, that I have occasionally found it convenient to use the various "Patent Pills" vended in the shops, but while I am unwilling to say anything to depreciate the value of others, I am free to confess that I consider Dr. Wright's Indian Vegetable Pills *superior to all others* with which I am acquainted I have used them for many years, both *in my own family* and in my practice generally, and they I have uniformly proved *mild, certain* and safe in their operations The care and skill with which these Pills have been hitherto manufactured are, in my opinion, a sufficient guarantee for the good results in future

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water applied as possessing and combining *more Strength and Speed*, and giving a *more uniform and Steady Motion* in and out of the cut (and therefore not liable to break cranks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the aperatures *larger* and allows the "drift stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by HIRAM A. BEARD, Esq, *Civil Engineer*—Lowell Mass; who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it providing the head rises in a freshet as fast as the back water But a Wheel with the jets nicely gauged for a high head will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionably decreased, so that the water may not unnecessarily waste and not give its best effect to the Wheel

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless is less liable to need repairs, easily accessible when they are needed costs much less in the outlay, is much more durable and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel

HIRAM A. BEARD, *Civil Engineer.*"

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system, while under the strengthening life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system, equalize the circulation of the blood promote the secretions, and never do the slightest injury under any circumstances Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain

To illustrate the case of a person afflicted with that bane of civilization, DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state and with injured faculties after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer, even in the worse symptoms of an attack and simply tie the Belt around the body, using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a slight electric circulation which will pass on to the negative, and thence back again to be positive, thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

Could be given, sufficient to fill every column in this paper We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and extended reputation—

SIDNEY, New Jersey July 12, 1848

DR A D CHRISTIE—Dear Sir I do wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men, but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year, caused me indescribable anguish In the severer paroxysms, the skill of my physicians sometimes afforded the great relief, but this relief was only temporary Farther in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors My nervous system was now *thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors, in which my soul has ever found the highest of her joys.

But happily for me, in this last extremity, I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopœia there seemed to be no remedial agent which could reach and reinvigorate my Nervous System; every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficacy) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, FOR HAVING SINCE DISPENSED A SINGLE SERMON ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has *never returned*, the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection is *entirely cured* Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, with HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,
ROBERT W. LANDIS.

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of *DR CHRISTIE'S GALVANIC ARTICLES*, and they may be worn by the most feeble and delicate with perfect ease and safety. A many cases the sensation attending their use is *highly pleasant and agreeable*. They can be sent to any part of the country
